

# Briarwolves

---

## Hunting hounds of the Horned God

### Hobgoblin Creatures

These creatures were once human but have now been twisted into bipedal wolf-like creatures that the **Horned God** uses both on his hunts and occasionally to dispatch into the mortal world on his behalf.

Briarwolves feed on meat but also on fear, pain and on the desperation of their prey.

---

**Stats:** Good (6) at running, tracking, soaking damage.  
Bad (2) at anything none tracking rolls involving intelligence or any rolls involving a social component.  
Contracts: Fang & Talon (wolves) 4, darkness 5,
